

November 10, 2024

To the Honorable Members of the United States Senate,

As members of the Dallas County Republican Party, we write to strongly express our position on the selection of the next Senate Majority Leader. The American people have made their expectations clear. They demand strong, principled leadership in the Senate—leadership that upholds conservative values and supports the America First agenda.

The U.S. Senate needs a Majority Leader who is fully committed to conservative principles and who will champion the policies of President Trump. Senators John Cornyn and John Thune have consistently aligned themselves with Democrats and voted for omnibus bills that fail to serve the interests of America and its citizens.

Their records do not reflect the leadership that the American people desire and deserve. Neither is the right choice for this critical role, because the American people need a leader with a conservative voting record. We urge our Republican Senators to elect a leader such as Rick Scott who embodies the values of President Trump and the America First agenda.

We will immediately distribute this letter through all available press outlets, social media platforms, and directly to every Republican U.S. Senator and Senator-elect.

Signed:

Lieutenant Colonel Allen B. West (USA, Ret) Member, 112th US Congress
Chairman, Dallas County Republican Party
Dee Holley, Executive Director, Dallas County Republican Party

Dallas County GOP Precinct Chairs
